VOLUME 23, NUMBER 1, MARCH 1984

A Tribute to Dr Sophie C. Ducker 1–2

G. T. Kraft. The red algal genus *Predaea* (Nemastomataceae, Gigartinales) in Australia 3–20

M. U. Patwary and J. P. van der Meer. Growth experiments on autopolyploids of *Gracilaria tikvahiae* (Rhodophyceae) 21–27

S. C. Lindstrom. *Neodilsea natashae* sp. nov. (Dumontiaceae, Rhodophyta) with comments on the family 29–37

C. van den Hoek, S. C. Ducker and H. B. S. Womersley. *Wittrockiella salina* Chapman (Cladophorales, Chlorophyceae), a mat and ball forming alga 39–46

G. R. South. Taxonomic implications of morphometric variation in a bloom population of *Euastrum didelta* (Chlorophyta: Desmidiaceae) 47–52

G. T. Kraft. Taxonomic and morphological studies of tropical and subtropical species of *Callophycus* (Solieriaceae, Rhodophyta) 53–71

J. R. Kenrick, E. M. Deane and D. G. Bishop. A comparative study of the fatty acid composition of *Prochloron* lipids 73–76

T. Ichimura and F. Kasai. Post-zygotic isolation between allopatric mating groups of *Closterium ehrenbergii* Meneghini (Conjugatophyceae) 77–85

D. G. Müller. Culture studies on the life history of *Adenocystis utricularis* (Phaeophyceae, Dictyosiphonales) 87–94

R. M. McCourt, A. F. Michaels and R. W. Hoshaw. Seasonality of symbiotic *Prochloron* (Prochlorophyta) and its Didemnid host in the northern Gulf of California 95–101

E. Takahashi and S. Hara. Two new marine species of *Chrysosphaerella* (Chrysophyceae) with a reinvestigation of *C. salina* 103–109

Book reviews and publications received 111–115

Report 115

Announcements 117

Published 14 March 1984

VOLUME 23, NUMBER 2, JUNE 1984

E. L. McCandless and C. M. Vollmer. The nemathecium of *Gymnogongrus chiton* (Rhodophyceae, Gigartinales): immunochemical evidence of meiosis 119–123

D. Livingstone, A. Pentecost and B. A. Whitton. Diel variations in nitrogen and carbon dioxide fixation by the blue-green alga *Rivularia* in an upland stream 125–133

A. J. K. Millar and G. T. Kraft. The red algal genus *Acrosymphyton* (Dumontiaceae, Cryptonemiales) in Australia 135–145

E. M. Gordon-Mills and H. B. S. Womersley. The morphology and relationships of *Husseyella rubra* (Harvey) comb. nov. (Rhodomelaceae, Rhodophyta) 147–159

S. Skinner and H. B. S. Womersley. Southern Australian taxa of Giraudiaceae (Dictyosiphonales, Phaeophyta) 161–181

P. L. Jones and Wm. J. Woelkerling. An analysis of trichocyte and spore germination attributes as taxonomic characters in the *Pneophyllum–Fosliella* complex (Corallinaceae, Rhodophyta) 183–194

J. P. van der Meer and F. J. Simpson. Cryopreservation of *Gracilaria tikvahiae* (Rhodophyta) and other macrophytic marine algae 195–202

R. A. Lewin. *Prochloron*—A status report 203–208

C. Perrone and I. Garuccio. Lycorine-induced reduction of phycobiliprotein levels in *Schottera nicaeensis* (Phyllophoraceae, Gigartinales) . . . 209–212

K. H. Nicholls. Eight Chrysophyceae new to North America 213–221

A. M. Breeman and A. ten Hoopen. Adaptation of photosynthesis to irradiance and daylength in the red alga *Acrosymphyton purpuriferum* (J.Ag.) Sjöst. (Rhodophyceae, Cryptonemiales), a species from the deep sublittoral region 223–231

R. E. Norris, E. M. Wollaston and M. J. Parsons. New terminology for sympodial growth in the Ceramiales (Rhodophyta) 233–237

K. E. Apt. The morphology of *Phaeocolax kajimurai* (Rhodomelaceae, Rhodophyta), a host specific epiphyte on *Lobophora variegata* (Phaeophyta) 239–247

Book reviews and publications received 249–253

Report 255

Announcement 256

Published 8 June 1984

VOLUME 23, NUMBER 3, SEPTEMBER 1984

P. A. Broady. Taxonomic and ecological investigations of algae on steam-warmed soil on Mt Erebus, Ross Island, Antarctica 257–271

M. J. Wynne, A. J. K. Millar and G. T. Kraft. *Platysiphonia marginalis* sp. nov. (Delesseriaceae), a new red alga from eastern Australia . . . 273–279

E. M. Wollaston. Species of Ceramiaceae (Rhodophyta) recorded from the International Indian Ocean Expedition, 1962 281–299

M. E. Klut, N. J. Antia and T. Bisalputra. Some properties of a fluoride-resistant mutant of the marine dinoflagellate *Amphidinium carterae* 301–310

D. J. Innes and C. Yarish. Genetic evidence for the occurrence of asexual reproduction in populations of *Enteromorpha linza* (L.) J. Ag. (Chlorophyta, Ulvales) from Long Island Sound 311–320

R. Walker and B. Moss. Mode of attachment of six epilithic crustose Corallinaceae (Rhodophyta). 321–329

T. Motomura and Y. Sakai. Ultrastructural studies of gametogenesis in *Laminaria angustata* (Laminariales, Phaeophyta) regulated by iron concentration in the medium 331–343

A. Sournia. Classification et nomenclature de divers dinoflagellés marins (Dinophyceae) 345–355

M. D. Guiry and E. M. Cunningham. Photoperiodic and temperature responses in the reproduction of north-eastern Atlantic *Gigartina acicularis* (Rhodophyta: Gigartinales) 357–367

I. A. Abbott. *Dotyella irregularis* sp. nov. and new observations on *Cottoniella* (Sarcomenioideae, Rhodophyta) 369–375

C. D. Amsler. Culture and field studies of *Acinetospora crinita* (Carmichael) Sauvageau (Ectocarpaceae, Phaeophyceae) in North Carolina, USA . . 377–382

R. G. Sheath and K. M. Cole. Systematics of *Bangia* (Rhodophyta) in North America. I. Biogeographic trends in morphology 383–396

J. Beardall and L. Entwisle. Internal pH of the obligate acidophile *Cyanidium caldarium* Geitler (Rhodophyta?) (Research Note) 397–399

Book reviews and publications received 401–402

Second International Phycological Congress 403

Announcements 406

Published 5 September 1984

VOLUME 23, NUMBER 4, DECEMBER 1984

C. J. O'Kelly and B. J. Baca. The time course of carpogonial branch and carposporophyte development in *Callithamnion cordatum* (Rhodophyta, Ceramiales) 407–417

E. C. Henry. Syringodermatales ord. nov. and *Syringoderma floridana* sp. nov. (Phaeophyceae) 419–426

A. W. Sylvester and J. R. Waaland. Sporeling dimorphism in the red alga *Gigartina exasperata* Harvey & Bailey 427–432

Y. M. Chamberlain. Spore size and germination in *Fosliella, Pneophyllum* and *Melobesia* (Rhodophyta, Corallinaceae) 433–442

E. Tschermak-Woess and E. I. Friedmann. *Hemichloris antarctica,* gen. et sp. nov. (Chlorococcales, Chlorphyta), a cryptoendolithic alga from Antarctica 443–454

C. W. Schneider. Studies on *Antithamnionella, Callithamniella* and *Calloseris* (Rhodophyta, Ceramiales) from North Carolina, USA 455–464

C. M. Pueschel and M. V. Parthasarathy. X-ray microanalysis of phytoferritin in *Constantinea* (Cryptonemiales, Rhodophyta) 465–469

J. G. Jijina and J. Lewin. Persistent blooms of surf diatoms (Bacillariophyceae) along the Pacific coast, USA. III. Relationships between diatom populations and environmental variables along Oregon and Washington beaches (1977 and 1978) 471–483

PHYCOLOGICAL REVIEWS 9

J. R. Stein and C. A. Borden. Causative and beneficial algae in human disease conditions: a review 485–501

D. L. Parry. Cyanophytes with R-phycoerythrins in association with seven species of ascidians from the Great Barrier Reef (Research Note) 503–505

R. A. Lewin, L. Cheng and J. Matta. Diurnal rhythm in the cell-division frequency of *Prochloron* (Prochlorophyta) in nature (Research Note) . . 505–507

F. Kasai and T. Ichimura. Meiotic anomalies in intergroup crosses between closely related mating groups of *Closterium ehrenbergii* Meneghini (Conjugatophyceae) (Research Note) 508–510

J. Beardall and L. Entwisle. Evidence for a CO_2 concentrating mechanism in *Botrydiopsis* (Tribophyceae) (Research Note) 511–513

In Memoriam 515–516

Book reviews and publications received 517–519

Correspondence 520–521

Announcements 522–523
